CAREER OBJECTIVE

- A talented M.Tech graduate and current Ph.D. researcher in Networking, Communication, and Signal Processing (NCSP), with a strong academic foundation and proven ability to identify and address complex research challenges. Passionate about contributing to impactful research and collaborative projects.

EXPERIENCE

2022 December -2023 December Worked as a Research Associate at International Institute of Information Technology Bangalore (IIITB)

- Worked on Design, analysis and real-time implementation of low complexity receivers and spectrally efficient channel estimation schemes for 6G multi-user MIMO/massive MIMO-OTFS systems.
- Design, testing and hardware implementation of block designs using VI-VADO software and MATLAB software.
- Worked along with Mathworks on HDL Coder and implementation.
- Trained interns on FPGA based hardware implementation of 5G Simulink models.

M.TECH THESIS

CHANNEL MODELING FOR INTELLIGENT REFLECTING SURFACE ASSISTED WIRELESS COMMUNICATIONS

📅 2022

Evaluated the feasibility of existing IRS aided wireless channel model under practical application scenarios and proposed a modified channel model which improved the performance of RIS aided wireless communication system in various applications by achieving channel hardening.

INTERSHIPS

- Student Trainee (Intern)
BSNL,Regional Telecom Training Centre,Trivandrum.
Undergone a 1 week internship program.
- Student Trainee (Intern)
BSNL,Neeramankara,Trivandrum.
Undergone a 2 weeks internship program.
- Student Trainee (Intern)
at Laxmi Infotek, Ernakulam, Kerala
Undergone a 5-day internship program in Application Development using AVR.
- Industrial Visit at Dooradarshan Kendra,Hyderabad.

ACHIEVEMENTS

-  Winner of 2nd National Symposium and Research Colloquium conducted by IEEE kerala section student branch GECW.
-  Volunteer of National Service Scheme(NSS), Unit 185.
-  Volunteer of INVENTO, annual multifest of GEC Palakkad.
-  College Design Team Volunteer
