EDUCATION

IIIT, BANGALORE

MS BY RESEARCH

Aug 2025 - Present | Bangalore, IN
Cum. GPA: 3.28 / 4

XIM UNIVERSITY

BTECH IN COMPUTER SCIENCE

July 2021 - Jul 2025 | Bhubaneswar, IN
Cum. GPA: 8.34 / 10.0

COURSEWORK

POSTGRADUATE (M.S.)

Advanced Natural Language Processing
Generative AI and Large Language Models
Vision Transformers and Multimodal Learning
Agentic AI Systems and Tool-Augmented LLMs
Mathematics for Machine Learning
Optimization and Probabilistic Modeling

SKILLS

TECHNICAL

AI & ML: NLP, Generative AI, Large Language Models, RAG, Multimodal Models (ViT), Agentic Systems
Frameworks: PyTorch, TensorFlow, Hugging Face, LangChain, OpenCV
Data & Analytics: Pandas, NumPy, SQL, BigQuery, Power BI
Cloud & MLOps: Google Cloud Platform (Cloud Run, Firebase, IAM), Docker, Git
Languages: Python

CERTIFICATIONS

IBM Data Science Certification
Power BI Certification by Microsoft
LangChain for LLM Application Development

INTERNSHIP EXPERIENCE

SPIKEWELL INDIA PVT. LTD. | SOFTWARE DEVELOPMENT INTERN

Dec 2024 - Jul-2025 | Bhubaneswar, IN

- Contributing to scalable healthcare data pipelines using Gemini 1.5 Pro for medical-grade conversational systems.
- Developing data ingestion workflows to support downstream analytics and machine learning tasks.

NAVIER MACHINES PVT. LTD. | ML ENGINEERING INTERN

May 2024 - July 2024 | Remote (Hyderabad, IN)

- Designed a functional RAG pipeline using Llama-3 and GPT-4 for structured conversational workflows.
- Built APIs using FastAPI and LangServe, improving frontend response integration efficiency.

PROJECTS

EVALUATION FRAMEWORK TO TEST CROSS-CULTURAL ALIGNMENT IN LLMs

ONGOING RESEARCH PROJECT

- Curating a multilingual and cross-cultural text dataset to study linguistic and contextual variation across regions.
- Focusing on dataset design considerations relevant to large-scale language model evaluation.

PRINCIPLE ALIGNMENT IN LARGE LANGUAGE MODELS

ONGOING RESEARCH PROJECT

- Investigating high-level principle alignment behaviors in large language models under varied prompt settings.
- Exploring alignment consistency and behavioral drift using controlled evaluation scenarios.

FULL STACK HEALTH QA SYSTEM

PRODUCT FOR CAREXA INC.

- Developed and deployed an end-to-end full stack health QA system leveraging Gemini API for medical question answering, using Cloud Run for backend services, Firebase for authentication and real-time data handling, and BigQuery for clinical data analytics.
- Integrated EHR/EMR devices through secure REST and FHIR-based pipelines, enabling seamless real-time data ingestion, storage, and retrieval within a scalable Google Cloud Platform architecture.

HACKATHON EXPERIENCE

FINALISTS – TECHNOVA

September 2024 | ESSPL Technologies Pvt. Ltd.

Developed a mobile SOS system using MANET and vernacular NLP techniques to enable emergency communication without network connectivity.
